Witness a spectacular ancient ritual that dates back to the time of the dinosaurs. Every year, between Sep and Jan, two species of globally endangered sea turtles - the Green and the Olive Ridley, nest and hatch on Sandspit Beach Hawsbay Karachi.

NCC provides you with the opportunity to experience this amazing sighting of the turtles, coming ashore, digging pits, making egg chambers, laying eggs, closing chambers and the tiny turtles hatching and sliding back into the sea.

This miraculous activity will provide an opportunity to learn more about the ecological role of sea.

### Program glimpse

- Welcome, briefing and turtle documentary show
- Guided educational walk along the Sandspit beach
- Experience sight of turtle laying eggs
- Guided snapshots with turtles
- Release of stranded hatchlings rescued by NCC

### Turtle Friendly Tips

Be quiet and unobtrusive  
 Don't use flashlights!  
 Don't litter!  
 Don't touch, ride or harass nesting turtles or hatchlings!  
 Be sure to stay behind the turtle!

**Daily Departure 7:00 PM**  
**Return 11:30 PM**

Nature Care Concern (NCC) envisages "human prosperity in harmony with nature", through creating environmental awareness among people by connecting them with the nature. NCC offers amazing eco-tours such as Wilderness Camping, Eco-adventure Trips to National Parks, Freshwater Lakes, Creeks & Coral Islands; Desert Camel Safari; Bird Watch, Mangrove Backwater Trip and Nature Study Scouting Trip among other.
